

TAKE 3

Take 3 is a website that generates recipe suggestions using 3 ingredients as chosen by the user

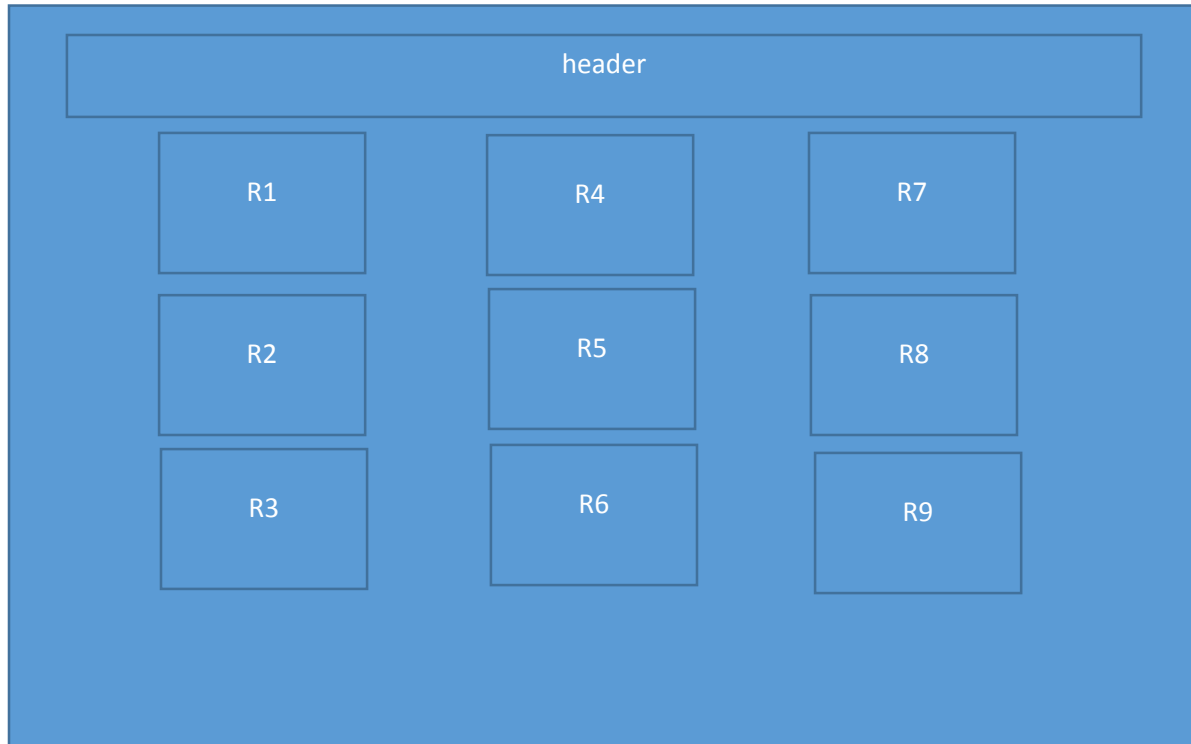

HOME SCREEN

- A list of ingredients will be indicated with a + sign before each ingredient in the left nav
- When an ingredient is clicked on, it populates categories 1, 2, and 3 respectively with a picture of the chosen food

RESULTS SCREEN

This page displays 9 recipe results that can be made from the 3 ingredients (by possibly using an API call from allrecipes.com?)

ABOUT SCREEN

Most likely 2 paragraphs of text and an image; users will be directed here by clicking “about” button on home screen
